Himanshu Bhatnagar

Full Stack Engineer | React | Node.js | PostgreSQL | SaaS & ERP Systems
Gold Medal – MCA Top Performer (2023)
Bengaluru - India

LinkedIn – GitHub – Portfolio +91-8094104911 – himanshu2000b@gmail.com

PROFESSIONAL SUMMARY

Full Stack Engineer with hands-on experience building scalable SaaS platforms, ERP systems, and government digital solutions using React, React Native, Node.js, Express, and PostgreSQL. Proven track record of owning complete modules end-to-end, implementing role-based access systems, real-time workflows, GPS-based attendance, and secure REST APIs in production environments. Strong focus on performance, reusable architecture, and business-driven product development.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, SQL, C++, C, Java, Python, PHP
- **Frontend:** React.js, Next.js, React Native, Mantine UI, Tailwind CSS, Bootstrap, jQuery, Vite
- **Backend:** Node.js, Express.js, REST API Development, Authentication & Authorization
- **Databases:** PostgreSQL, MySQL
- **Tools & Platforms:** Git, GitHub, AWS, cPanel, UNIX/Linux (Arch), Android Studio, Google Maps API
- **Testing & Automation:** Selenium (Java), API Testing, Functional Testing

PROFESSIONAL EXPERIENCE

- **Mercury IT Solutions – Software Engineer** - ***Jodhpur | July 2025 – Present***
  - Contributing to the Government of India's eNAM platform, a large-scale digital agriculture marketplace.
  - Designed and delivered the complete Weighment Module, enabling service providers to manage equipment, generate certificates, track capacity in real time, and handle booking workflows digitally.
  - Integrated secure REST APIs with frontend components for seamless CRUD operations and real-time system updates.
  - Implemented data validation and optimized workflows, ensuring reliability for production-scale usage.
  - Collaborated in cross-functional agile teams to deliver production-ready features under strict timelines.
- **Nexflare Dynamics – Frontend / Full Stack Developer** - ***Pune | May 2024 – June 2025***
  - Played a key role in building NEXHRMS – a multi-tenant SaaS HRMS platform as part of a Transport ERP.
  - Developed React Native mobile modules with advanced features including continuous background location tracking.
  - Implemented role-based access control (RBAC) for secure handling of sensitive data (location, messages, contacts).
  - Built scalable UI architecture and integrated APIs for attendance, payroll, shift, and workforce management workflows.
  - Managed end-to-end feature delivery, from requirement analysis to production deployment.
- **OctaNet Software Services – Web Developer Intern - Bengaluru | May 2023 – June 2023**
  - Developed a Shopify-inspired e-commerce UI using React with responsive and reusable components.
- **Hub2Technologies – Full Stack Developer Intern - Jaipur | Jan 2021 – Aug 2021**
  - Built responsive web applications using PHP, JavaScript, HTML, CSS, Bootstrap, and MySQL.
  - Developed backend functionality and managed deployments using cPanel and phpMyAdmin.

KEY PROJECTS

- **eNAM – Government Digital Agriculture Platform**
  Tech – TypeScript, Tailwind CSS
  - Designed and delivered the complete Weighment and Warehouse Module for digital commodity handling.
  - Built workflows for catalog management, equipment onboarding, service requests, and booking history.
  - Implemented real-time capacity tracking and weighment certificate generation.
  - Developed role-based dashboards for service providers and users to streamline operations at scale.
- **NEXHRMS – SaaS-Based HRMS** [LINK]
  Tech – React.js, Next.js, Mantine UI
  - Developed a multi-tenant SaaS HRMS web application to manage employee lifecycle, attendance, payroll, and compliance.
  - Designed scalable, responsive admin dashboards for real-time workforce monitoring and operational control.
  - Built role-based access control (RBAC) for secure and structured user management.
  - Reduced development time by ~30% through a reusable component architecture.
  - Integrated REST APIs for seamless data flow across HR, payroll, and attendance modules.

- **NexHRMS – HRMS Mobile Application** [LINK]
  Tech– React Native, React Native Paper
  - Built the companion mobile application for the NEXHRMS platform to enable employee self-service and field workforce management.
  - Implemented GPS-based attendance with geo-fencing and radius validation for real-time location verification.
  - Developed features for leave management, shift tracking, task updates, and performance visibility.
  - Enabled continuous background location tracking, even after app termination, for transport workforce operations.
  - Applied permission-based access handling for secure use of location, media, and device capabilities.

- **SANGRANG – Handcrafted Rajasthani Bags Catalog Platform** [LINK]
  Tech – React.js, Tailwind CSS, Vercel
  - Developed a production-ready product catalog website for a Jaipur-based handcrafted bag brand to showcase traditional Rajasthani collections.
  - Designed a responsive and visually rich UI focused on cultural aesthetics and product presentation.
  - Implemented dynamic product gallery with blurred background previews for enhanced user experience.
  - Integrated direct WhatsApp inquiry workflow, enabling customers to send pre-filled product queries instantly.
  - Deployed the application on Vercel for fast global delivery.

- **Sakhi Chittorgarh – NGO Digital Platform (Backend)** [LINK]
  Tech– Node.js, AWS
  - Developed secure REST APIs for a government-supported women empowerment platform.
  - Implemented Monthly Progress Report (MPR) submission and Excel export functionality.
  - Designed optimized database operations for reliable large-scale data handling.

- **Noumi – Freelance Web Application**
  Tech – JavaScript, Bootstrap, jQuery
  - Developed a responsive UI for a bill aggregation platform promoting paperless and eco-friendly operations.

EDUCATION

- **Sir M Visvesvaraya Institute of Technology** — Bangalore, India
  Master's degree in Computer Applications (MCA): 8.2 CGPA — Sep 2021 – Sep 2023
- **JECRC University** — Jaipur, India
  Bachelor of Computer Applications (BCA): 6.8 CGPA — Aug 2018 – July 2021

ACHIEVEMENTS

- Gold Medal for academic excellence in MCA.
- Led and coordinated university-level technical event (Amphibot).
